Ages 7 and up welcome (Age as of Aug 31, 2017)

Team placements will be announced via email on May 26th
Team practices will begin Sunday June 4th
Mandatory Parent Meeting: June 4th, meeting times will be in your placement email

As an all-star program we understand that you may have a certain idea as far as placement for your athlete. However, coaches will evaluate your athlete in multiple areas, which include, jumps, motions, dance, memory, maturity, previous stunting ability, as well as, tumbling skills. Many parents and athletes assume that if they have a certain tumbling skill, that they are automatically ready for that specific level, this is not true. We will look at the needs of the gym and the program as a whole, and will place your athlete where we feel they will be the best asset to a team, and not a weaker member. Athletes may move over to a different level by the end of summer or asked to cross compete on 2 teams within the same level. An athlete's placement will not be truly set until late July to get ready for choreography

Practices:

Teams will attend practices 2 times a week, 2 hours each time
Each team will have a Sunday practice and a weekday practice
Practices will continue through summer. Expect extra practices the weeks leading up to competitions.

Summer practices are extremely important, this is the time when the athletes develop new skills and learn to work as a team. Regular attendance is mandatory, absence policies will be outlined in the parent packet and meetings. Athletes that will miss more than 4 practices in the summer can only be evaluated for a team at the end of summer or once they're back on a regular basis and only if there are spots available.

Competitions:

Teams will compete once to twice a month starting in November through May. Competitions will be held locally, along with Houston, Dallas, and possibly Orlando.

Levels & USASF Age Divisions:

All Star teams are comprised of levels and ages. Tumbling and cheer requirements are level specific and not limited to the requirements listed below.
